A Community United

Mayor Chris Vergano - ShopRite Mgr. Jose Marroquin - WEA President Sean Spiller

The teachers and support staff of the Wayne Public Schools were happy to assist those in need after the devastation caused by severe flooding.

As with any tight-knit community, the terrible destruction of Hurricane Irene and Tropical Storm Lee was matched only by the outpouring of support from everyone and every group within Wayne.

Already disturbed, seeing so many of our colleagues affected by the flooding, it was heartbreaking to see so many students returning to school who were victims of the flooding as well.

In addition to those volunteering their time individually, we knew we wanted to do something collectively.

We are so pleased that ShopRite agreed instantly to match our contribution and we were able to provide $3,000 for those in need.

In a township that always supports those individuals and groups within it, we were happy to play our part.
